REUNITED CHURCH AIM OF METHODISTS

Conclusions of Committee Considering Union Ready for General Conference.

REPORT ON EPISCOPACY PROVOKES WARM DEBATE

Election of Seven New Bishops Recommended—Stringent Prohibition of Liquor Demanded.

SARATOGA SPRINGS, N. Y., May 15.—The proposal to reunite the Methodist Episcopal Church and the Methodist Episcopal Church South, which have been separated since 1845, will be made the order of special business at tomorrow's session of the Methodist General Conference.

The report of the special committee on federation, presented to the conference today, endorsed the proposed unification, in the belief that such union would "hasten the development of a truly world church." The report recommends that the general conference be the supreme governing body of the reunited church and that the plan of unification be extended to any other Methodist bodies that may desire it after the amalgamation of the north and south branches of the denomination has become effective.

The report favors the organization of special conferences for the negro membership of the church, such conference to be represented in the general conference.

Report on Episcopacy.

The presentation of the report of the committee on episcopacy, recommending the election of seven new bishops or general superintendents, precipitated a warm debate. The report recommended that the offices of three deceased and two retired bishops be retained and two new episcopal areas be established.

The report prepared the way for the immediate balloting for bishops of the church. One is to be assigned to Korea, where the work has been supervised by a missionary bishop, and the other is to fill the new Episcopal residence at Detroit, Mich.

"Discipline" Issue Up.

Announcement is made that the committee on state of the church, to which was referred the much-discussed question of amusements, will report in favor of eliminating from the discipline the prohibition against games of chance, theater attendance and dancing. The campaign in the committee to strike out the prohibition against these specified diversions was conducted, it was said, by two college executives, Chancellor James R. Day of Syracuse University, and President Samuel Plantz of Lawrence University, Appleton, Wis., who maintained that the ban of these amusements tended to keep the young people out of the church.

One of the most important subjects to be acted upon during the coming week is the general statement of the attitude of the church on the question of temperance and prohibition. A temperance committee has agreed upon a report which goes farther than the Methodist Episcopal Church has ever gone before.

Whereas four years ago the main drive was for the passage of the interstate liquor shipment bill as the immediate national issue, this report declares that the liquor traffic cannot be licensed without sin, and specifically urges the immediate submission by Congress of a prohibition amendment for the action of the states.

Another Phase Advanced.

Pending the submission and ratification of this amendment the conference wants congressional prohibition in all territory under the jurisdiction of Congress, specifically including the District of Columbia.

The conference also will demand the closing of the United States mails to all liquor advertising. While the report endorses the church's own temperance society for educational work and the promotion of total abstinence, it also indorses the Anti-Saloon League as the agency of the Methodist Church for co-operation with other churches, in obtaining legislation and law enforcement, and the political work necessarily incident to such activity.

WILLIAM S. KNOX DEAD; FUNERAL HERE TOMORROW

Prominent in Business Affairs of Capital and Active in Civic Interests.

William S. Knox, fifty-two years old, for many years president of the Knox Express Company, died suddenly Saturday morning at Atlantic City. Funeral services are to be held at the family home tomorrow afternoon at 2:30 o'clock.

Probably none of the younger business men of Washington enjoyed a wider acquaintance or was more universally esteemed than was Mr. Knox, who was always an active and zealous worker for the welfare of the District of Columbia, friends say.

His civic activities were many. He was the organizer and first president of the Business Men's Association of this city, and with all activities of a public character in the District for the last quarter of a century he was prominently identified.

NEGRO BURNED TO DEATH.

Victim at Waco, Tex., Had Confessed Assault and Murder.

WACO, Tex., May 15.—With 15,000 persons as witnesses, including women and children, Jesse Washington, negro boy, who confessed to the criminal assaulting and murder of Mrs. Lucy Fryar, seven miles south of here, last Monday afternoon, was taken from the fifth district courtroom shortly before noon today and burned to death on the public square.

For "Civil Service" Department.

Senator Curtis of Kansas today introduced a bill to create a department of civil service in the government, with a cabinet officer at its head. He introduced the bill by request.

EXPLOSION KILLS EIGHT

Dozen Others Injured at du Pont Powder Plant, Near Gibbstown, N. J.

GIBBSTOWN, N. J., May 15.—Eight men are reported killed and a dozen injured by an explosion today at the Repauno plant of the du Pont Powder Company, near here. Among the dead are believed to be the superintendent and his assistant.

Employees of the company said they would be unable to give the exact number of killed and injured until the men had been checked up.

Five buildings were demolished by the explosion, which was felt a distance of many miles. So far as can be learned the blast occurred in a building where nitrate was being manufactured. Dynamite and other high explosives, used for commercial purposes, are manufactured at the Repauno plant.

Real Estate Transfers.

REAR OF 13TH STREET NORTH—WEST between T and U streets—George S. Ziller et ux, to George A. Cox, lot 89, square 235; \$10; stamp, 50 cents.

NO. 1775 LANIER PLACE NORTHWEST—Same to Louis P. Keyser, lot 358, square 2553; Lanier Heights; \$10.

BRANDEIS VOTE WEDNESDAY.

Senate Judiciary Committee Indulges in Discussion of Nomination.

Members of the Senate judiciary committee today indulged in a frank discussion of their views on the nomination of Louis D. Brandeis to the Supreme Court of the United States, and before the expressions of opinion of various members were given an understanding was reached that they would be held strictly in confidence. The committee took no action and adjourned until Wednesday, when, some senators said today, it was probable that a vote would be taken.

The discussion today is understood to have been of such a nature as to give the committee a fairly accurate estimate of what a vote on the nomination will show. One or two democrats are said to have indicated strongly that they would oppose his confirmation. Should they hold to these views a straight vote on a motion to recommend confirmation of Mr. Brandeis probably would be defeated. Reports still are current that the nomination may be returned to the Senate without recommendation.

Railway Trainmen in Meeting.

DETROIT, Mich., May 15.—The proposed eight-hour day for engineers, firemen and other members of train crews was expected to be the most important question discussed at the national convention of the Brotherhood of Railway Trainmen, which opened here today. The convention will probably not adjourn until June 1. The ladies' auxiliary also convened.

Many speakers are to discuss phases of the trainmen's fight for shorter hours and less overtime.

The annual fire loss of this country amounts to \$2 each inhabitant.

NEW JUSTICE BUILDING STARTS A SENATE FIGHT

Strong Opposition Develops to Proposal to Spend \$3,000,000 on Structure.

A fight on the proposal to expend \$3,000,000 for a new and handsome building to house the Department of Justice was made in the Senate today, when Senator Swanson of Virginia succeeded in getting his bill for the construction of the building before that body for consideration.

Senator Williams of Mississippi, Senator Stone of Missouri and Senator Vardaman of Mississippi insisted that \$3,000,000 was too great a sum to pay for such a building, especially at a time when the government is about to make extraordinary expenditures for national defense running into hundreds of millions of dollars. An amendment was offered by Senator Williams to reduce the amount to be expended for the building to \$1,000,000.

Fights for Full Amount.

This was strongly resisted by Senator Swanson, chairman of the public buildings and grounds committee, who told the Senate that plans for the building had been designed, after a competition, at a cost of \$50,000, and that the Treasury Department had submitted estimates for the structure at \$2,000,000. He insisted that it was a great mistake to erect a building on the two squares south of Pennsylvania avenue between 14th and 15th streets, across the way from the Treasury Department, which would not be in conformity with the Treasury building, which he characterized as the most beautiful architectural of all the government department buildings in the city. He pointed out, too, the great need for a proper building for the Department of Justice, which now is occupying quarters in some eight rented buildings, at an annual rental of \$38,000.

Two Amendments Adopted.

The Senate did adopt two amendments to the building bill, however, one of which was offered by Senator Lodge of Massachusetts, to the effect that if new plans were made for the building there should be a competition of architects, and one by Senator Newlands of Nevada providing that before any plans were finally approved the fine arts commission should be asked for its advice.

Senator Nelson of Minnesota urged that the new building for the Department of Justice should be erected upon Capitol Hill, and that it should be adequate to accommodate the Supreme Court and the law library of that court. He said that he was opposed to the passage of the Swanson bill which would put the department far away from the Capitol and the Supreme Court. There is no provision in the pending bill for housing the Supreme Court in the new building.

UNION "FUNERAL OF PROTEST"

Striking Bakers Make Demonstration at Obsequies of Comrade.

CLEVELAND, Ohio, May 15.—With Robert Rosen, proprietor of a chain of bakeries, his two sons and son-in-law under arrest in connection with the shooting to death Sunday of Joseph Feld, striking Rosen employee, members of the Bakers' Union, led by their secretary, carried Feld's body past Rosen's residence and stores today. It was a "funeral of protest." Police confiscated two banners which the striking bakers carried. They read: "Rosen's label—the mark of Cain," and "Killed in battle between capital and labor." But the officers interfered with no other details of the funeral. The pallbearers carried the body of Feld in a coffin on their shoulders through crowds which jammed the streets and were held in check by police reserves.

WORK THEIR WAY UP RIVER.

Shad and Herring Reported to Have Reached District Waters.

According to reports received at the fish wharf, the Potomac in the vicinity of Georgetown is full of shad and herring that have worked their way up from the sea to the fresh water of the Potomac to spawn. The full moon of May is the spawning time, according to old fishermen, and they say that soon after that time the adult fish begin to disappear and the little fish are left to look after themselves. The full moon of May this year falls on Wednesday next, the 17th, and if the fishermen's statements are correct the fish population of the Potomac will be increased by many millions, about that time.

Under the laws of the District it is a misdemeanor to catch shad with nets in the waters of the District, but in former years boys had sport angling them with hooks fastened to the end of a line and pole and whipped through the water. This method of catching the fish is allowable under the law, as few fish are thus caught.

Gauged by the lowness in price, the height of the fish season this spring was reached April 21, when roe shad sold at 29 cents each and bucks at 15 cents each. The catch both of shad and herring this year was far in excess of that for several years past.

Newsboy's Skull Fractured.

Frank L. Campbell, eight years old, 1602 E street southeast, yesterday afternoon struck his head against the handle of a pump at 10th street and South Carolina avenue and received a fracture of the skull. The little fellow was selling papers, it is stated, and while hurrying along the street he fell.
